A graphic celebrating the 10th anniversary of the Global Energy Interconnection (GEI) in 2025. It features a large, stylized '10' in white outline, with 'th' in a smaller font to its right. The number '10' is set against a background of concentric circles and a central glowing point. Below the '10' is a red ribbon that flows across the page. The letters 'GEI' are written in a bold, yellow, sans-serif font, partially overlapping the ribbon. The year '2025' is positioned above the '10'. The background of the graphic is a dark red with a subtle grid pattern.

10th GEI 2025

The background of the entire page is a composite image. The top half shows a view of Earth from space, with a bright horizon line. On the right side, a series of industrial structures, possibly offshore oil or gas rigs, are visible against the blue of the planet. The bottom half of the page features a blue, glowing network of lines and nodes, resembling a digital or energy grid. Several red spheres of varying sizes are scattered throughout the scene, adding a sense of depth and movement.

The Global Energy Interconnection Development and Cooperation Organization (GEIDCO) is a non-governmental, non-profit international entity that brings together companies, associations, institutions, and individuals committed to advancing sustainable energy development worldwide. Established in Beijing, China, on March 29, 2016, GEIDCO holds the distinction of being the first international organization in the energy sector initiated by China. Its mission is to foster the creation of a Global Energy Interconnection (GEI) system that addresses global power demand through clean and sustainable energy solutions. GEIDCO has achieved consultative status with the UN Environment Programme (UNEP) and the United Nations Industrial Development Organization (UNIDO), as well as observer status at the UN Climate Change Conference and the UN Biodiversity Conference. Additionally, it has been recognized as a "National Advanced Social Organization" by the Ministry of Civil Affairs of China.

Members are an essential part of GEIDCO. By the end of 2024, GEIDCO has pooled a total of 1390 members, spreading across 143 countries on six continents, covering 13 categories such as Energy and Power Enterprises, Equipment Manufacturing Enterprises, Project Construction Enterprises, Research Institutions, Universities and Colleges, Organizations and etc. A strong cooperation network with global coverage is thus formed. GEIDCO members include 34 Fortune Global 500 companies, world-renowned institutions, and world-famous universities.

FOREWORD

In 2024, under the leadership of the Council and with the support of its members and partners, GEIDCO adhered to the development principles of "Strategic Positioning, Superior Quality, and High Competency". Focusing on the core concepts of "Value Connection, Value Creation, and Value Sharing", GEIDCO aims to provide intellectual support with high-quality and efficient services to assist its members in transformation and development, enhance their capabilities, and expedite practical initiatives. As a result, GEIDCO has received widespread recognition and high praise from various parties.

In 2025, GEIDCO will uphold the principles of realism and pragmatism, aiming for mutual benefit and win-win outcomes. Focusing on the 10th anniversary of the GEI initiative, it will emphasize the characteristics of "exclusive, specialized, and professional" services, establishing a new member service brand. GEIDCO will provide "2+5+5" services, that is, providing all members with two basic services including "information service" and "conference exchange", five Personalized services for members in need, five special member events i.e. "Member Day", "Member Trip", and "Member Records". We are ready to create greater value for the transformation and development of members through quality and efficient services and deeper pragmatic cooperation.

This guide provides you with a comprehensive introduction to membership services in 2025 and offers our contact channels such as official GEIDCO media and World of Energy Interconnection (WEI) platform.

Please feel free to contact us!

Information Service

GEIDCO Information

Using its own media matrix and various media platforms, GEIDCO provides intelligent push service of professional information. Members have access to the service through the following channels:

S/N	Name	Frequency	Channel
1	GEIDCO news	Real-time	1. Visit the official website of GEIDCO: "News" under the section of "News & Media" 2. Follow the WeChat and Weibo official accounts 3. Follow the official WeChat video channel and Douyin account 4. Follow the official X and Facebook accounts
2	Member news	Real-time	Visit the official website of GEIDCO: "Member News" under the section of "Members"
3	Global information	Real-time	Visit the official website of WEI platform: "Global Info" section
4	GEI Weekly	Weekly	1. Visit the official website of GEIDCO: "Trends & Updates" under the section of "News & Media" 2. Visit the official website of WEI platform: "GEI Weekly" under the section of "Global Info" 3. Follow the WeChat and Weibo official accounts 4. Receive e-mails regularly
5	GEI Vision	Weekly	1. Follow the WeChat and Weibo official accounts 2. Receive e-mails regularly
6	Global Energy Interconnection Information	Monthly	1. Visit the official website of GEIDCO: "GEI Information" under the section of "Publications" 2. Follow the WeChat official account of <i>Global Energy Interconnection Information</i> 3. Receive e-mails regularly 4. Subscribe to the hard copy
7	Journal of Global Energy Interconnection (Chinese version)	Every odd-numbered month	1. Visit the official website of GEIDCO: "Academic Journal" under the section of "Publications" 2. Visit the official website of WEI platform: "Journals" under the section of "Global Info" 3. Visit the official website of the <i>Journal of Global Energy Interconnection</i> 4. Follow the official WeChat video channel of the <i>Journal of Global Energy Interconnection</i> 5. Subscribe to the hard copy
8	Journal of Global Energy Interconnection (English version)	Every even-numbered month	1. Visit the official website of GEIDCO: "Academic Journal" under the section of "Publications" 2. Visit the official website of WEI platform: "Journals" under the section of "Global Info" 3. Visit the official website of the <i>Journal of Global Energy Interconnection</i> 4. Visit the Elsevier platform 5. Follow the WeChat official account of the <i>Journal of Global Energy Interconnection</i> 6. Subscribe to the hard copy
9	GEI research reports or abstracts	Quarterly	1. Visit the official website of GEIDCO: "Research" section 2. Visit the official website of WEI platform: "Resource Sharing" under the section of "Global Info" 3. Regularly receive the hard copy or the electronic version
10	Membership Development Annual Report and Membership Service Guide	Q1	1. Visit the official website of GEIDCO: "Service Guide" under the section of "Members" 2. Receive e-mails

Information Sharing among Members

GEIDCO advocates and facilitates the information and outcome sharing among its members. Through the WEI platform, it also regularly releases information regarding industry trends, journals & magazines and case studies provided by its members or partners.

- China Electricity Council: News
- Chinese Society for Electrical Engineering: Power & Electrical Engineers
- CCPIT Information Center: Investment promotion information
- Silk Road Youth Forum: Silk Road Encyclopedia

Conference Exchange

GEIDCO Conferences and Forums

Focusing on topics such as GEI, climate change and new power system, GEIDCO will build high-level international conference platforms with its global partners. These conferences will gather high-ranking representatives from government departments, industry associations, enterprises and institutions. Members can obtain the latest information and sign up for the conference in the "Events" section on the official website of GEIDCO and the "Conference Activities" section on the official website of WEI platform.

Davos, Switzerland, January 20-24

Events related to World Economic Forum Annual Meeting 2025

Promote GEI-related research outcomes and facilitate high-level discussions

New York, USA, July

UN High-Level Political Forum on Sustainable Development—GEI Theme Event

Encourage exchanges and discussions on the role of GEI in achieving SDGs of the 2030 Agenda for Sustainable Development

Beijing, China, Mid September

(7th) Global Energy Interconnection Conference 2025

Review and reflect on the decade since the propose of GEI initiative, and anticipate future developments

Beijing, China, October

Theme Events of the Fourth Belt & Road Forum for International Cooperation

Release research outcomes regarding the Belt & Road Initiative, and enhance pragmatic collaboration with Belt & Road partners

Vienna, Austria

Events related to International Vienna Energy and Climate Forum

Release research results of energy and climate

Belém, Brazil

COP30—GEI Theme Event

Release research results of GEI addressing climate change

Beijing, China

Significant Achievements Announcements (Series)

Release GEIDCO's key research results

(Subject to actual arrangement)

Member-only Service

Members can enjoy the following services at the conference:

Conference Site

- Free attendance
- Free access to conference materials and publications
- Participate in exchanges and discussions
- Visit supporting exhibitions

Online

- Watch live and playback conference online
- Watch live and playback exhibition online
- Free access to conference e-materials

Exclusive Service for Sponsor Members

Conference sponsors can enjoy exclusive bonus:

- Opportunities to address the conference
- Loop display of corporate promotional video
- Meeting opportunities with high-level guests
- Display at onsite physical booth and online virtual booth
- VIP arrangement (VIP lounge, front seats, etc.)
- Media interview or live field interview
- Key visual image display

High-quality Events for Members

Focusing on the hot topics of widespread concern, GEIDCO will invite members to comprehensive flagship events and characteristic events in different regions, including symposiums and seminars, visits and investigations, live streaming, and recorded broadcasting. The outcomes of these events will be released to members through the GEIDCO's media platform and WEI platform in the form of pictures, texts and short videos. Members can sign up and review events, share and forward relevant information through the WEI platform.

(Subject to actual arrangements)

S/N	Name	Time	Form	Main Contents
Theme Events				
1	Academic Live Streaming of "Discussing the Journal of Global Energy Interconnection"	Regularly	Live streaming	Contributing editors, core authors and others share opinions on topics of the journal
2	Academic Annual Conference for Energy Strategy and Energy Interconnection	H2	Symposiums and seminars	Experts and scholars conduct academic exchanges and discussions around themes
3	Global Energy Interconnection Conference Member Seminar	Q3	Seminars	Organize member discussions during the Global Energy Interconnection Conference
4	Symposium for Members and Alliance Liaison Officers	Q4	Symposiums and exchanges	Exchange on the annual member work achievements and the next year's work plan
Investigation Events				
1	Conference Participation and Investigation in Middle East	From March to April	Field investigation	Organize members and experts to visit Saudi Arabia, UAE, and other Middle East countries to advance collaboration in industry transformation, upgrading projects, and investment and financing
2	Conference Participation and Investigation in Africa	From May to June	Field investigation	Organize members and experts to visit Malawi, South Africa, Angola, and other African countries to participate in workshops or seminars on power planning, power grid transformation, through on-site coaching.
Capacity Building				
1	Capacity Building in Middle East	From March to April	On-site training	Conducted during "Member Trip"
2	Capacity Building in Africa	From May to June	On-site training	Conducted during with "Member Trip"
3	Capacity Building in Southeast Asia	H2	Online training	Conducted in conjunction with "Member Day"
4	Capacity Building in Latin America	H2	Online training	Conducted in conjunction with "Member Day"

02 Personalized Services

Leveraging information technology, GEIDCO will gain in-depth insights into the unique needs of its members. The organization will concentrate on developing channels for consulting and research, data and information services, project matchmaking, as well as publicity and promotion. Through these efforts, GEIDCO aims to deliver forward-thinking and professional personalized services tailored to the specific requirements of its members.

Channel Product

High-end Matchmaking

GEIDCO will cooperate with the Academy for International Business Officials of MOFCOM, International Cooperation Center of National Development and Reform Commission, University of Chinese Academy of Social Sciences and other institutions to invite overseas senior officials to visit its members, investigate new energy innovation demonstration projects, and conduct holistic and high-quality exchanges and training.

Mechanism Cooperation

GEIDCO will work with high-level platforms such as the World Energy Council, World Economic Forum and Multilateral Cooperation Center for Development Finance of AIIB to provide members with opportunities for resource matchmaking and thematic exchanges. Through collaboration among different mechanisms, GEIDCO will help members seize market opportunities and expand business areas.

Knowledge Product

Data Resource

GEIDCO will coordinate the intellectual resources of members and experts from the Advisory (Consultant) Board and Technical (Academic) Committee to continually offer substantive theoretical research and innovative knowledge products on energy interconnection.

Professional Training

Focusing on key policies and technologies GEIDCO will establish a joint training mechanism with its members and partners, carrying out characteristic talent training, and support members in the capacity building. Members can register for courses through the WEI platform and obtain certification upon the completion of courses.

Project Product

GEIDCO pools all forces to build the "WEI" platform, providing members with one-stop project cooperation services such as project demonstration, investment guidance, contact, and matchmaking in power grid interconnection, clean development, and low-carbon transition. It also selects exemplary demonstration projects and training bases of the GEI and new power system. Additionally, it organizes and invites relevant domestic and international members for site visits and training activities, providing members with opportunities to explore new technologies, equipment, and products. In collaboration with relevant members, GEIDCO facilitates the deployment of the initial GEI demonstration projects.

GEI demonstration bases include (but are not limited to):

Enterprise exhibition halls

Huawei Technologies Co., Ltd., TBEA Co., Ltd., Trina Solar Co., Ltd., etc.

Energy and power laboratories

North China Electric Power University, Shanghai University of Electric Power, etc.

New energy and smart grid demonstration projects

Zhangbei National Wind and PV Power Storage and Transmission Demonstration Project, Three Gorges Dam Project, Suzhou-Nantong GIL Integrated Utility Tunnel Project, National Demonstration Project of Luneng Haixi Multi-energy Complementary Integration and Optimization, etc.

Media Product

GEIDCO will mobilize media resources of members and partners to help members with brand publicity, exhibition and display, technology promotion, and image upgrading.

Media Resources

Members can publicize their developments and corporate image through the following GEIDCO media resources:

WEI Platform

- ☆ Set up a dedicated display page
- ☆ Post news and trends
- ☆ Promote project information
- ☆ Release product presentation
- ☆ Release research outcomes
- ☆ Publicize meeting activities

GEIDCO Official Media

- ☆ Post news and information

Global Energy Interconnection Information

- ☆ Publish publicity articles
- ☆ Publish advertisements

Journal of Global Energy Interconnection (Chinese and English Versions)

- ☆ Publish academic papers

Member and Partner Resources

According to the actual needs of members, GEIDCO will also coordinate media members and relevant partners to carry out brand communication. The available resources mainly include:

Member Media Resources

- **China Energy News:** Recommended by news editors
- **China Youth Daily:** Recommended as major news topics

Other Resources

- **China International Exhibition Center:** Display opportunities at large events or exhibitions

Customized Product

For those with personalized needs, GEIDCO has established a service mode characterized by "Professional Team, Exclusive Contact, Special Customization", providing targeted, accurate, pragmatic and effective services such as exclusive information, technical consultation, high-end matchmaking, targeted research, business planning, conferences and forums, and brand publicity to enhance competitive advantages.

03

Innovative Services

Focusing on the 10th anniversary of GEI, GEIDCO will launch a series of pioneering membership services to establish a member service brand.

Hosting a Thematic "Member Day"

GEIDCO will plan a Member Day with the theme "Grow with GEI", inviting founding members to review development journeys, share achievements, and share insights. GEIDCO will organize another Member Day with the theme "Chasing Light into the Future's New Journey", inviting representatives from energy and power enterprises, academic think tanks, and financial institutions to envision future development prospects, a blueprint for collaboration, and innovative growth.

Organizing a Featured "Member Trip"

Focusing on the collaboration in industrial park, solar photovoltaic generation, and energy storage projects, GEIDCO will organize members and experts to visit Middle Eastern countries like Saudi Arabia and the UAE. These "Member Trip" events aim to facilitate industry transformation, investment and financing cooperation. GEIDCO will follow up on the consensus reached during the Forum on China-Africa Cooperation, and organize members and experts to visit African countries such as Malawi, South Africa, and Angola focusing on power planning, grid upgrades, and capacity building through on-site coaching.

Planning the Series of "Member Records"

GEIDCO will integrate various media communication channels, select typical cases and collaboration fruits, and plan the "Decade of Member Records". These work will showcase achievements on members' strategic planning, technological innovation, and market expansion.

Optimizing the Membership Network

GEIDCO will strengthen the bond role of international regional and national committees, leverage their liaison service functions, and conduct optimal resource allocation. GEIDCO will select certain domestic members to build the efficient interaction among regional members in daily communication, technical exchange, capacity building, and pragmatic project collaborations.

Selecting Outstanding Members

GEIDCO will plan and select the "Light of GEI" outstanding members. Using a "self-nomination + recommendation" approach, GEIDCO will evaluate and select members with outstanding contributions, and present awards at the Global Energy Interconnection Conference.

Professional Alliance Activities

GEIDCO will leverage the Alliances' expertise in their specialized fields to focus on the development and promotion of demonstration projects, the establishment of standard systems, and research regarding major issues. GEIDCO will conduct the GEI practice enhancement year activities and release findings at the Global Energy Interconnection Conference to boost the Alliances' influence.

Establishing an Innovative Project Collaboration Model

GEIDCO will guide the chair of each alliance to draft annual work plans on GEI initiative. GEIDCO will assist the chair of University Alliance to develop "campus energy transition" projects in Zambia, Kenya, South Africa, and other countries. GEIDCO will establish a "local investment-university assessment-GEIDCO promotion" win-win model, and facilitate the spread of outcomes on platforms like UNESCO.

Facilitating Exchanges on Cutting-edge Technologies

GEIDCO will guide the chair of the Equipment Alliance to participate in the process of international standards and green electricity certificates. GEIDCO will organize site visits and investigations. GEIDCO will guide the chair of the Finance Alliance to find the investment potential in specific regions in collaboration with relevant international organizations, and host international seminars focused on investment policy and risk management.

Organizing Capacity Building

University, think tank, equipment and finance alliances will collaborate with members to establish an expert talent pool. They will develop courses tailored to the requirements of specific regions, conduct capacity-building training sessions, and provide intellectual support.

Sharing the Alliances' Achievements

Think tank, equipment, finance, and university alliances will collaboratively host the "GEI Tenth Anniversary Energy Talk" Roundtable Forum to review the Alliances' significant milestones, development path, and future prospects. During the Global Energy Interconnection Conference, forums will be held to release the results of the four alliances, highlighting innovations in project advancement, talent cultivation, standard formulation, and international collaboration.
