

Global Energy Interconnection  
Development and Cooperation Organization  
全球能源互联网发展合作组织

2025

INVITATION

## Invitation Letter

We sincerely invite you to join the Global Energy Interconnection Development and Cooperation Organization (GEIDCO). GEIDCO is an international organization made up of aspiring enterprises, associations, institutions and individuals who are dedicated to promoting Global Energy Interconnection (GEI) and energy sustainability worldwide.

Promoting large-scale development and utilization of clean energy to meet the challenges of energy security, environmental pollution and climate change has been the common pursuit of the international community. However, unbalanced distribution of clean energy resources and capability gaps in different countries and regions have led to reverse distribution of production and demand for clean energy, which severely restricts the development of clean energy worldwide. Therefore, it is necessary to establish a platform for optimized energy deployment globally, i.e. the GEI. With Ultra High Voltage (UHV) grid as the backbone. GEI is a globally interconnected strong and smart grid, which will serve as a platform for extensive development, allocation and utilization of clean energy globally, forming a new electricity centered and clean energy dominated energy pattern, and further contributing to realizing the UN target of “Sustainable Energy for All”.

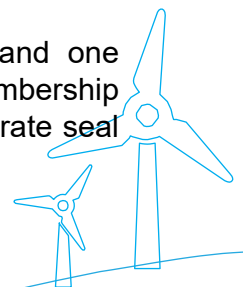

To achieve this vision, initiated by State Grid Corporation of China (SGCC) along with other 79 first members, the GEIDCO was founded in March 2016 to promote the development of GEI by pooling together talents, knowledge and resources across a wide range of sectors and backgrounds, including electric power and energy, finance and investment, equipment and manufacturing, and advanced technologies. Since its establishment, GEIDCO has made achievements in concept promotion, technological innovation, research and planning, as well as cooperation on interconnection projects. On November 1<sup>st</sup>, 2017, UN-DESA and GEIDCO co-hosted the high-level symposium titled “Building Global Energy Interconnection, promoting the 2030 Agenda for Sustainable Development” at the UN headquarter, which marked that the GEI initiative was officially listed under the framework of the UN 2030 Agenda, reaching global consensus and action.

Your participation and support will be of great value and asset for GEIDCO. Meanwhile, GEIDCO has launched University Alliance and Think-Tank Alliance in 2018 and Finance Alliance as well as Equipment Alliance in 2019 for better coordination of GEI development and cooperation within different fields. We look forward to your involvement in establishing the interactive and effective international platform to create cooperation opportunities, jointly promote energy connectivity and contribute to the sustainable economic, social and environmental development in the world.

To express your interests in becoming a member of GEIDCO and one of the GEI Alliances (optional), please fill in the confirmation form for membership and return a scanned copy with signature of your legal representative or corporate seal to us.

Yours Sincerely,

Global Energy Interconnection Development and Cooperation Organization

## Overview

GEIDCO, founded in March, 2016 in Beijing, China, is an international organization among willing firms, associations, institutions and individuals who are dedicated to promoting the sustainable development of energy worldwide. The purpose of GEIDCO is to promote GEI to meet the global demand for electricity in a clean and green way, to implement the United Nation "Sustainable Energy for All" and climate change combat initiatives, and to serve the sustainable development of humanity. Till now, GEIDCO has 1390 members from 143 countries, covering all major continents Asia, Europe, Africa, North and South America, and Oceania. The current Chairman of GEIDCO is Mr. Xin Bao'an, who is the President of China Electricity Council (CEC) and former Executive Chairman of State Grid Corporation of China (SGCC), Dr. Liu Zehong, the former Executive Vice President of State Grid Corporation of China (SGCC), Mr. Oleg Budargin, the former Vice Chair of World Energy Council and former Director General of PJSC ROSSETI, as well as Ms. Elham Mahmoud Ibrahim, the former Vice Chair-Africa of World Energy Council and former Commissioner of Infrastructure & Energy of the African Union Commission, serve as the Vice Chairmen.

## Member Rights and Benefits

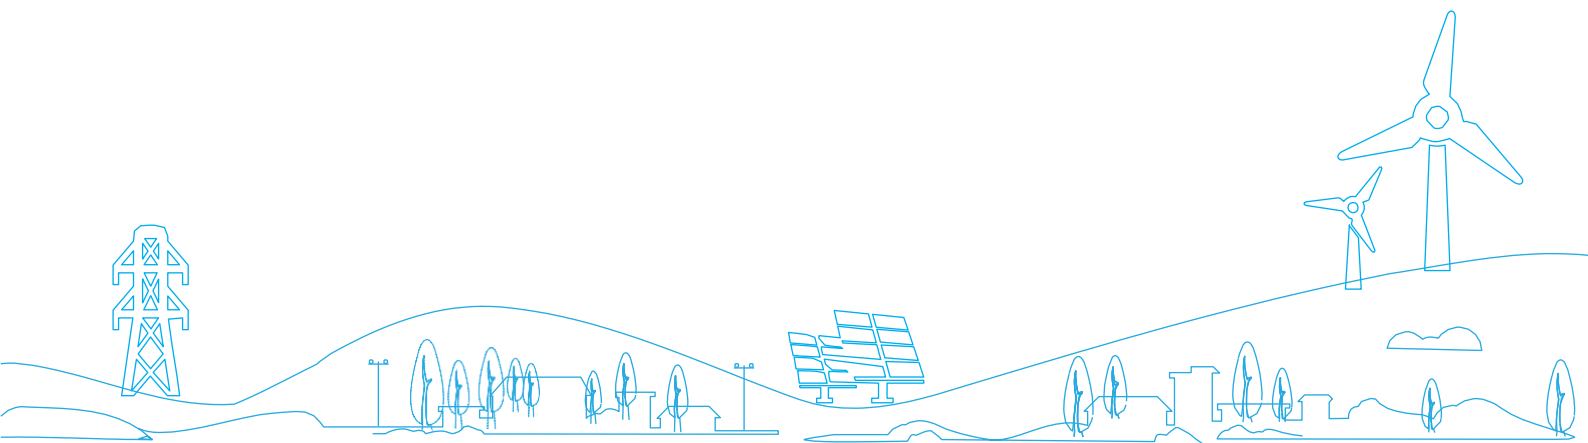

- Premium access to GEIDCO' s reports and study results on global economic, social and energy development.
- Access to GEIDCO' s database.
- Take part in joint research on key issues of global energy interconnection, including clean energy resource planning, policy studies, geographical conditions environment assessment, and social-economic studies, etc.
- Take part in joint planning, feasibility studies and assessment of regional power interconnection and key grid interconnection projects.
- Access to consulting service of core technical standards of GEI.
- Participate in financing and investment of GEIDCO's projects.
- Obtain consulting services for international energy legislation and relevant national and regional energy law, regulations policies, investment and financing.
- Participate in regular member events, to cooperate and share resources with other GEIDCO members.
- Priority access to naming rights of international conferences and events organized by GEIDCO.
- Opportunities for corporate publicity at GEIDCO' s media platforms, such as conferences, websites, journals, etc.
- Participate in training programs organized by GEIDCO.

### Introduction of GEI Alliances

To promote relevant trade resource integration and complementary advantages, expand industry alliance, focusing on key areas of GEI, GEIDCO independently initiated the establishment of four alliances: University Alliance of Global Energy Interconnection (UAGEI), Think-Tank Alliance of Global Energy Interconnection (TAGEI), Finance Alliance of Global Energy Interconnection (FAGEI) and Equipment Alliance of Global Energy Interconnection (EAGEI).

As exchange and cooperation mechanism under the framework of GEIDCO, Four Alliances are separately composed of important power grid enterprises, universities, think-tanks, financial institutions, equipment manufacturing enterprises and relevant organizations who support the concept of GEI with strong influence. No membership fee is required. The Four Alliances aim to build resource sharing, complementary advantages and multiple open platform, provide technology innovation, talent nurturing, concept spread, policy study, financial guarantee, equipment manufacturing support for construction of GEI, serve for the development of GEI, transformation of energy around the world and the sustainable development of human society.

The establishment of UAGEI was on September 26th, 2018, and it has 49 famous universities members. On December 10th, 2018, TAGEI was officially established, and it currently has 62 think-tanks members. On September 26th, 2019, FAGEI and EAGEI were officially established. The current members of FAGEI and EAGEI have 27 financial institutions and 102 equipment manufacturing enterprises.

## **What members of the Alliances of GEI will get?**

### ***Exclusive service for members of 4 alliances of GEI***

#### **Conference**

- Participate in the member plenary, deliver speech or talks and exchange information and promote cooperation.
- Participate in the thematic meetings, conduct special conference speeches and promote publicity.

#### **Publicity and Recommendation**

- Display in relevant activities organized by the Alliances of GEI.
- Obtain publicity and recommendation on specified material provide by the Alliances of GEI.

#### **Information**

- Obtain the annual report, quarterly information, relevant research report or abstract of the Alliances of GEI.

### ***Exclusive service for members of specific alliance of GEI.***

#### **Financial Service (for FAGEI)**

- Exchange investment and financial information on the FAGEI Investment and Financing Platform.

#### **Technology Exchange (for EAGEI)**

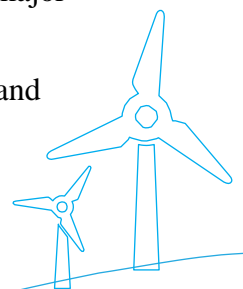

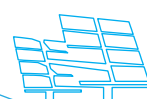

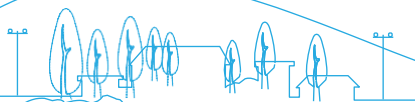

- Participate in the discussion and research of key technologies, core equipment and market demands required for the establishment of GEI.
- Participate in the relevant power equipment exhibition.

#### **Training and Exchange (for UAGEI)**

- Participate in UAGEI technic training for members, visiting and investigation activities.

#### **Joint Research (for TAGEI)**

- Jointly investigate and research, apply for project, study and discuss on major topic, release report on the joint research platform built by TAGEI.
- Join the theory, technology and policy research team of electric power energy and some relevant areas.

## Confirmation Form for Membership of GEIDCO & GEI Alliances

<b>Candidate Organization</b>			
Name of the Organization			
Address			
Postcode			
Official Website			
Legal Representative		Title	
<b>Brief introduction of the organization</b> (Please attach separate sheets if needed)			
<b>Contacts</b>			
Name of the Contact		Title	
Department			
Phone		Fax	
E-mail			
<b>GEI Alliance(s) (Optional)</b>			
Please select ONE alliance that is most relevant to your organization:			
<input type="checkbox"/> Equipment Alliance of Global Energy Interconnection (EAGEI)			
<input type="checkbox"/> Finance Alliance of Global Energy Interconnection (FAGEI)			
<input type="checkbox"/> University Alliance of Global Energy Interconnection (UAGEI)			
<input type="checkbox"/> Think-Tank Alliance of Global Energy Interconnection (TAGEI)			
<b>Declaration</b>			
We (applicant): are willing to join the Global Energy Interconnection Development and Cooperation Organization (GEIDCO) and the selected Global Energy Interconnection Alliance, and to comply with the Articles of Association for GEIDCO and the GEI Alliance accordingly.			
Seal or Signature:		Date:
